

Our Philosophy of WomanCare

WomanSafeHealth is a safe, respectful and compassionate practice in which each client defines and obtains Empowering WomanCare and Gynecology health services.

Your Integrative Psychiatry Visit

I believe that the health and balance of all systems of the body, mind, emotions and spirit are interconnected, and personal health is interconnected with the Earth and community in which you live. Instead of a “one-size-fits-all” approach to enhancing mental health, together we will develop a treatment plan that takes into consideration your uniqueness and all the levels that make up your total health. You will be offered education, guidance and direct therapeutic interventions that all strive to help you learn about yourself, find balance, heal and maintain wellness.

At your visit, a blend of evidence-based conventional, complementary and alternative approaches will be incorporated based on your needs. Rather than only treating the symptoms of mental health imbalances, we will explore and address root causes. These may include physical/emotional/spiritual traumas, nutritional or hormonal imbalances, genetic polymorphisms, toxic exposures, relationship losses, lifestyle stressors and learned beliefs and habits from childhood that no longer serve you.

I honor and support this step you are taking towards deeper health and well-being.

Payment Policy

WomanSafeHealth is a fee-for-service medical practice. You are responsible for paying in full at the time of service. We welcome clients without and with insurance. We will provide you a receipt at the time of your visit that you can submit to an insurance company for possible reimbursement.

Marnie Burkman, MD

Marnie is an integrative psychiatrist who is dedicated to helping others recover and enhance their wellness on every level of health – including body, mind, spirit and community. She is board-certified in psychiatry and integrative holistic medicine. She received her medical degree in 2003 from Tufts University School of Medicine in Boston, MA and completed her psychiatry residency at Banner Good Samaritan Medical Center in Phoenix, AZ. She has practiced integrative psychiatry in diverse settings including hospitals, the Veterans Health Administration system and in private outpatient practice.

WomanSafeHealth

We welcome women, girls, trans and gender nonconforming people of every age and ability, size, shape, color, sexuality and identity, from all social, spiritual and cultural backgrounds.

We provide a safe, family-friendly environment in which you can seek, explore, define and receive Empowering WomanCare and Gynecology health services.

WomanCare meets physical and psychological health needs through conventional and alternative approaches, and encourages and promotes self-care.

We welcome those who feel unwelcome in other medical settings and those who have experienced physical and/or sexual violence or disrespect.

We provide a secure, private, barrier-free, fragrance-free, environmentally friendly office including cotton linens, bamboo cabinets and floors, and low VOC paints.
